## YOUR TOWN DUMP

### Use it freely

Your town dump has been set up for your personal convenience. It provides a suitable place where you can dispose of the large amounts of dangerous, inflammable waste material and other useless items which accumulate around your household and local stores, brush, etc., cut on your property. The town dump has become a valuable and indispensable asset in modern community life.

The most successful town dumps are supervised — regular days provided for their use and inflammable material consistently burned. The town dump which receives no attention, where waste material is scattered about without supervision of any description, soon becomes a community menace and a liability rather than an asset.

Many people still burn debris around their homes. A large number of such fires get out of control causing unnecessary damage and expense to the burner. Why burn at home? Make use of your town dump and eliminate the hazard of burning. It will be easier for you — personally and financially.

If, however, you do burn on your premises

1. Secure a permit from your local forest fire warden — the law requires it. The warden won't refuse you if conditions are safe.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty

**LIBRARIAN'S REPORT**  
**of the Pillsbury Free Library**  
**for the Year Ending December 31, 1956**

---

*To the Trustees of Pillsbury Free Library:*

The Institute of World Affairs served a tea in the historical room of the library in August. A very interesting book exhibit was on display at that time.

At the annual town meeting Mrs. George H. Harmon was elected to serve on the Board of Trustees.

During National Book Week in November, members of the Board of Trustees and the Librarian visited the Graded Schools and read to each class. The First Grade made pictures which were displayed at the Library.

The total number of books loaned this year was 7,448. 226 new books have been added.

During the year further progress has been made as to the improvement of the historical room. A new rug and six maple chairs have been obtained. Finished stock of knotty pine boards have been acquired and now stored in readiness for eventual sheathing the walls of the room. Special thanks in this accomplishment is extended to Mrs. George H. Harmon, Mr. L. Earl Nichols, and Mr. L. Waldo Bigelow, Jr.

For donating books, magazines, pamphlets, and pictures we wish to thank the following: Mr. Leon Baxter, Town of Warner, Mrs. Chester Gooch, Mrs. Warren Cofren, Mr. Walter Miner, Mr. William Dowling, Miss Zora Clough, Mrs. George Rogers, Mrs. Oscar Jewell, Mr. Wesley Harri-man, and Mrs. George C. Brown.

The Trustees have met in the library for all their regular meetings.

Respectfully submitted,

MRS. IRVING A. GEORGE,  
*Librarian*

After several years of having a fairly constant teaching staff, we have had numerous changes this year. Mrs. Ellen Pillsbury was promoted to the vacant principalship at the Graded School and Mrs. Vernice Dwinnells was employed in Mrs. Pillsbury's position. The greatest change, however, occurred in the high school. Mr. Charles Laber is the new teacher of agriculture replacing Earle Randall who left teaching. Miss Elizabeth Otten is the new mathematics and science teacher replacing Starvro Chagrasulis who also left teaching. Douglas Brown is the new social studies teacher replacing E. Curtis Hall who accepted a teaching position in Massachusetts. Mr. Brown coached the cross country team to another championship, and will coach girls' basketball this winter. Edgar Kenney, the new com-

mercial teacher, who replaced Mrs. Mildred White, will also coach basketball and baseball. Mrs. Dorothy Atherton is the Homemaking teacher, replacing Miss Betty Barton who left to teach in New York state.

This is a very large change of personnel and puts extra burden on the Principal to mold the staff into a good working unit. A good start has been made in developing the team work necessary if we are to continue a good program for our high school pupils.

One of our chief difficulties is the large number of courses offered for the size staff that we have. The Junior High group should have more supervised study and a more varied program but with the present staff it is impossible. I would suggest that another teacher be added to the staff and that he should be a person who has been trained for Junior High School (seventh and eighth grade) work.

We seem to be getting more Sutton children than we have for the past few years, and it looks as though we might have some more next year. I know that the parents who have sent their children to Simonds have been pleased with the results. A fairly good indication that we are meeting the needs of these pupils.

I have been working with the School Planning Committee since late spring, and they will be ready to report to the next annual meeting if their report is not in this town report. The Committee has had many valuable discussions and has visited both schools while they were in session. At the moment I am not sure what their conclusions and recommendations will be, but I am sure they will be constructive.

More needed improvements have been made in the high school. New light fixtures of the fluorescent type have been installed in the English room, and the front porches have been repaired.

Teacher supply in the state is very limited and will continue to be so for some years to come. There are going to be more children in schools. The total number of

births in the nation is increasing each year and these children are going to create a greater bulge than we already have. Towns are going to compete for teachers in the open market which will make it impossible for school districts to employ teachers at the present salaries. Some adjustment will have to be made on the salary schedule because some school districts are hiring beginning teachers in some fields at salaries that are equal to our maximum figure. Small districts are being squeezed by the larger districts in this inflationary trend.

State and federal aid to Warner is very small and the outlook is not too good. At the present time, there is some state aid for construction and there may possibly be some federal aid if the segregation problem does not get involved in the federal building aid program again.

These are trying times for small school districts and I appreciate the burden you have to bear. I am sure, however, that Warner will continue to provide the best education possible for its children.
